We love the beachy, sexy look, but is dry, gritty and crispy hair sexy? The key to looking (and feeling) artfully undone is having a special product that you can't see but that you can touch, like this one.

Undressed creates texture without torture – and unlike so many surf-inspired sprays is seductively soft and lush.

HOW TO USE UNDRESSED

It couldn't be simpler:

Spritz on damp or dry hair.

Keep layering until you get the texture you're after.

Touch freely (or invite someone else to).
